

- Notes**
1. Technical electrical power in all venues supplied by twin pack generators. All devices except the main PA were also powered by 15 minutes of UPS.
  2. Broadcast television pool: Miami - FOX, Cleveland & Tempe - ABC, St. Louis - NBC
  3. Broadcast radio pool: all sites - ABC Radio
  4. Primary audio and communications via single mode fiber and backup feeds via copper. One section of in house fiber was used in Miami.
  5. Diverse path cabling techniques implemented, wherever possible, for security.
